

Dear Sir/Maddam, I would like to advise the FCC that I truly benefit from XM Radio and the services they provide such as Traffic, weather and limited commercial is definately worth the monthly price. In fact, it's painful for me to listen to regular AM/FM stations due to the non stop commercials being played. I feel that if we are paying for this service-much like cable tv or internet, I as a taxpaying citizen of the United States should be able to get traffic and weather on a 24 hour basis. I ASK THAT XM AND ALL SATELLITE RADIO STATIONS BE ALLOWED TO BROADCAST WHAT THEY WANT, WHEN THEY WANT AND TO WHO THEY WANT AS LONG AS WE PAY.
